## PROFILE SUMMARY

Highly skilled Full-Stack Developer with 5+ years of experience designing, developing, and optimizing scalable, high-performance web applications. Proven track record in leading full-stack projects, modernizing legacy systems (Joomla to Laravel), and enhancing application speed and user engagement. Proficient in PHP, Laravel, JavaScript, and Python, with strong skills in API integration, database management, and code optimization. Recognized as the "Best Performer" for consistently exceeding project goals. Adept in Agile/Scrum environments, seeking to drive innovative and impactful software solutions.

## HIGHLIGHT OF QUALIFICATION

- 5+ years of hands-on experience in full-stack development using PHP, Laravel, JavaScript, and MySQL.
- Successfully led complex migrations from Joomla to Laravel, improving performance and maintainability.
- Strong backend API development skills with experience in mobile app integration and Postman testing.
- Proficient in integrating Stripe payments, email services, and building dynamic admin panels.
- Recognized with "Best Performer" and "Best Improved Performer" awards for outstanding contributions.
- Collaborative team player with experience working in Agile/Scrum environments and cross-functional teams.

## PROFESSIONAL WORK EXPERIENCE

### Software Developer Aipopuli Technologies, India

Oct 2019 - Mar 2024

- Led full-stack development for various high-impact web applications, delivering all projects on time with strong customer satisfaction.
- Developed front-end and back-end services using JavaScript, PHP, and MySQL, with a consistent focus on high-performance architecture.
- Migrated multiple legacy systems from Joomla to Laravel, improving system scalability and performance by 25%.
- Delivered a 30% increase in processing speed through advanced code optimization techniques.
- Mentored junior developers, conducted code reviews, and enforced best practices in SDLC, Agile, and Scrum.
- Played a key role in establishing Git, Postman, and Jira across development teams, significantly boosting collaboration and efficiency.

### Full-Stack Developer GetSetRent, UAE

Dec 2019 – Mar 2023

- Joined the project when it was built on CodeIgniter, then independently led its migration to Laravel.
- Developed and maintained APIs in PHP for a mobile app version of the platform, tested using Postman, and collaborated closely with app developers for seamless updates.
- Integrated with the Stripe payment gateway and email services, ensuring secure transactions and automated communications.
- Built and maintained an admin panel for backend management, allowing the admin to add, update, and control features dynamically.
- Collaborated with QA and product teams to ensure stability, scalability, and user-centric feature development.

### Full-Stack Developer PatientGain, United States

Feb 2020 – Mar 2024

- Joined a skilled development team working on a large-scale healthcare CRM platform.
- Worked on both the complex Joomla-based legacy code and actively participated in the Laravel migration.
- Responsible for converting major system components from Joomla to Laravel, helped achieve 95% migration completion.
- Contributed to the development of CRM modules, Stripe payment integration, email systems, and custom plugins.
- Created and maintained embeddable web apps for client WordPress websites.
- Coordinated cross-functional teams including WordPress developers, app developers, customer support, and directly with clients to gather requirements, deliver features, and resolve issues.

## CERTIFICATIONS

- Vue.js, LinkedIn Learning Jan 2024

## ACHIEVEMENTS

- Best Improved Performer Award – Aipopuli Technologies 2023
- Best Performer Award – Aipopuli Technologies 2021
